

WHITEPAPER

DECENTRALIZED APP **SHARK DeFi**

THIS WHITEPAPER REGULATES THE BASIC PROVISIONS OF THE OPERATION AND DEVELOPMENT OF THE SHARK DEFI, CONTAINS EXPLANATIONS AND GOALS OF THIS PLATFORM. ALSO REVEALS THE MECHANISM FOR MINING AND SELLING SWD TOKENS AND PROVIDES ANSWERS TO THE MOST POPULAR QUESTIONS.

WHEN CREATING THE SWORD TOKEN WE SET OURSELVES THE GOAL OF MAXIMIZING THE DEFI POTENTIAL OF OUR PLATFORM. WE PAID CLOSE ATTENTION TO ITS INDEPENDENCE, TRANSPARENCY AND POPULARITY, CREATING FAVORABLE CONDITIONS FOR ALL USERS OF THE PLATFORM. WE DECIDED TO ABANDON PRE-MINING AND SET A ZERO LEVEL OF REWARD FOR THE DEVELOPMENT TEAM.

THUS, THE SWORD TOKEN IS ENTIRELY MANAGED BY THE SHARKTRON SMART CONTRACT AND OPEN SOURCE COMMUNITY. WE HOPE THAT THE SWORD TOKEN WILL BECOME AN EFFECTIVE TOOL FOR REALIZING THE SHARKDEFI COMMUNITY FACILITIES OF SELF-GOVERNMENT AND WILL ALSO TAKE ITS PLACE AMONG OUR TOKENS THAT CAN BE USED ON ALL PROJECTS OF OUR SHARKTRON PLATFORM.

WE HOPE THIS WILL BE A COMPLETELY SELF-DIRECTED SOCIAL EXPERIMENT IN WHICH THE SHARK COMMUNITY WILL BE ABLE TO REPLICATE AND FULLY SIMULATE THE PRINCIPLES OF DEFI PLATFORMS AND SERVE AS A BASIS FOR STUDYING AND DEVELOPING THIS DIRECTION. THE FUTURE OF THE PLATFORM IS DETERMINED BY ITS PARTICIPANTS AND DEPENDS ON EACH OF YOU.

I. SWD ISSUANCE

SWORD is a digital asset based on TRC20, the technical standard used for tokens in smart contracts on the TRON blockchain. The total supply of tokens is 50,000,000 SWD.

II. SWD MINING

1. SWD distribution is fully decentralized through mining based on smart contract. The only way to mine SWD token is to deposit SRX, TTH or TRX on our website and receive SWD rewards.

2. Number of accrued tokens

SWD tokens are credited to your profile in real time. Please note that the profitability from SWD mining is fixed in TRX. In SRX or TTH tokens, it can change depending on their exchange rate in relation to TRX.

MINING FORMULA

$$\text{NUMBER OF SWD MINED} = \text{STAKED FUNDS} \times \text{SWD YIELD BY LEVEL} \times \text{NUMBER OF DAYS}$$

3. Chronology of SWD mining.

SWD mining will officially start on October 15, 2020 and will end when all 50,000,000 SWD tokens have been mined.

4. Honesty of mining.

During the SWD token mining period the mining rewards will be fairly distributed according to the number of SRX, TTH or TRX staked over time. All mining rewards are calculated based on the smart contract implementation.

You can withdraw your staked SRX, TTH or TRX at any time taking into account a commission of 10% of the total stake amount and stop mining SWD.

III. TRADE SWD

1. Immediately after the start trade and exchange of SWD will be available for all participants.

You can withdraw earned SWD tokens to your wallet at any time. You can exchange SWD tokens for SRX, TTH or TRX on the JustSwap exchanger or on SharkExchange.

IV. REFERRAL PROGRAM

The program that encourages the invitation of partners operates exclusively at the stage of SWD mining. You will receive a bonus in the form of 10% SWD from the amount of tokens mined by your partners. These tokens are included in the total number of mined tokens and are generated during the mining process by your referrals.
